

OrganoStart™ Pro

Colon Organoid

MIMETAS

Accelerate Your Drug Testing with 3D Organoid Models

Enhance your research with the OrganoReady® Colon Organoid and OrganoTEER® device. Our ready-to-use, stem cell-derived colon model combined with real-time barrier function assessment enables precise, high-throughput drug toxicity evaluation. This seamless integration delivers both scalability and precision, letting you kickstart your experiments efficiently.

The package includes:

OrganoTEER®

Standard package
