

# OrganoStart Pro Package

## Get started with 3D tissue modeling and TEER

Start today with modeling 3D tissue models and assessing their endothelial and epithelial barrier function at high throughput. With our OrganoPro Package you'll be able to kickstart your first experiments successfully using the OrganoPlate® in combination with OrganoTEER®.

**High-throughput TEER measurements of your tissue cultures**  
Measure up to 40 samples at once - in under a minute.

## The Package Plus includes:

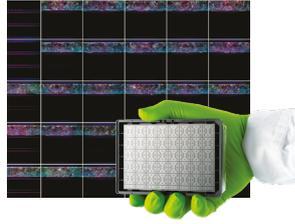

**OrganoTEER®**

**Including:**

- Laptop with OrganoTEER® Software
- 1x OrganoReady® Caco-2 for installation

**20x  
OrganoPlate® 3-lane 40**

**4x  
OrganoReady® Caco-2**

**OrganoFlow® L**

**E-learning Module**  
Including key reagents

**4hrs**  
**Consultancy**  
by Field Application Specialist

## OrganoTEER® Service

Installation and Training  
by Field Application  
Specialist (FAS)

2-year  
warranty

2 years of Preventive  
Maintenance after  
9 and 21 months
